## OJO DE AGUA AGUARDIENTE DE ORUJO DE UVA BLEND

### CALM WATERS RUN DEEP

#### CHARACTER

It will warm the soul on any cold day, this is Ojo de Agua's Aguardiente. We make two different versions of Argentine Grappa, one from pure Malbec, the other from distilled Malbec and Cabernet France. Both are produced with great care in order to obtain a clean and high quality distillate. Individual lots of pomace are distilled separately and then brought together in a special selection to complete this tasty aguardiente. It's soft with a full body, and after time will continue to refine and develop flavor.

#### VARIETAL

Malbec and Cabernet Franc pomance

#### TASTING NOTES

Crystal clear and bright with an intense and complex fruity aroma, which at times taste like raisins. In this case, fresh grape aromas also appear, customary of the varieties involved in the blend (Malbec + Cabernet Franc).

A harmony in the mouth, without too much alcoholic notes, with an aftertaste reminiscent of aged wines and clear character marked by the grapes.

#### ALCOHOL

40 % VOL
