WINEMAKING

Grape Selection	Organic Malbec, Syrah and Merlot grapes are carefully chosen in Agrelo, Luján de Cuyo, an area well known as the mecca of grape production in Argentina.
Elaboration, Fermentation, Storage	We take high quality red grapes and harvest at the ideal ripeness to achieve freshness and acidity. The fermentation takes place in stainless steel tanks, at temperatures between 16-18°C. Here we achieve a slow, smooth and controlled fermentation, taking time to develop this wine's aromatic potential.
